The Spring Summer 2025 collection is immersed in a dreamy atmosphere, in a nowhere land where the desire for novelty mixes with the desire for color and freshness. It is a hymn to optimism and positivity, fully reflected in the garments and footwear that make up the collection. The SS25 collection celebrates spring as a time of change, when the wardrobe is renewed and bright colors take on the upper hand. The colors are inspired by the delicate tones of the sky, they capture the essence of this transition season towards summer, inviting us to get out of the daily routine and embrace a lighter and more joyful mood.

“We are rainbow makers” emerges as a key concept, proposing the idea of a total look for every occasion, from head to toe. The color palette faithfully reflects the theme of the collection. For men, blue stands out with shades and intensity that give depth to the line, combined with shades of bright green and pastel neutrals.

These shades are enhanced thanks to the play of shades and textures provided from the materials used. For the uppers of the 250 line shoes, thanks to nylon, the heavy mesh and the various types of suede used, from flat to hairy.

The soles strongly characterize this line, with modern volumes and a nod to the Brand's archive, with direct references to historical footwear from the early ,90s. Immerse yourself in the atmosphere of the season, happy sailing.
