LIFE'S LITTLE MOMENTS

summer

2026

En los últimos años, numerosos estudios han analizado cómo están cambiando nuestros hábitos como sociedad: nuevas formas de socializar, mayor atención a la salud mental y una transformación profunda en la manera en que consumimos tecnología.

Conceptos como metaverso, mindful gaming, IA, dopamina, sundrying, streaming o second hand ya forman parte de nuestra vida cotidiana.

¿Por qué? Se dice que los momentos de cambio son terrenos fértiles para la destrucción creativa: etapas donde la necesidad de innovar transforma las estructuras previas y da lugar a otras nuevas.

En esta revolución, las emociones, la tecnología, la naturaleza y la creatividad son las fuerzas que nos impulsan. Y en el centro de todo, seguimos estando las personas: más conectadas que nunca.
